**CONTRIBUTION OF POLISH PHYSICIANS  
CONCERNING THE MEDICINE DEVELOPMENT  
IN UKRAINE (SECOND HALF OF THE XIX  
– BEGINNING OF THE XX CENTURY)**

Reconstruction of the history of medicine, of portraits of its active workers, recollections about them in our current existence enable us to understand the experience of former generations as well as to build our future.

The National Scientific Medical Library of Ukraine carrying out the multi-sided research program “ Documentary Recollections of Ukraine „ began the series „ Medical Bibliographistics”, the first edition of the bibliographic glossary “Medicine in Ukraine. Outstanding Physicians. End of the XVII – First Half of the XIX Century” having appeared already in 1997.

In 2005, the first part of the work “Medicine in Ukraine. Letters A-K (Second Half of the XIX - Beginning of the XX Century)” was published.

Here we represent the second part of this work published in 2012 (Letters L-S). This volume contains 560 biographies of physicians having brought a valuable contribution to the progress of medical science in Ukraine. There is also information concerning medical specialists including a lot of persons of Polish origin who had not been born in Ukraine, but had worked with great success for the development of medical science in our country.

It is possible to recall many Polish physicians of outstanding activities in Ukraine including the names of Erazm Brzeziński (1794 – 1879), Teofil Wdowikowski (1834 – 1916), Włodzimierz Wysokowicz (1854 – 1912), Seweryn Gałęzowski (1801 – 1878), Henryk Hubert Korwin-Krasiński (1833 – 1890), Antoni Izydor Mars (1851 – 1918), Andrzej Obrzut (1854 – 1910), Leonard Bronisław Radziszewski (1838 – 1914), Kazimierz Sulima Przyborowski (1824 – 1879), Henryk Karol Kadyi (1851 – 1911), Jan Rudolf Raczyński (1859 – 1918), Wacław Zachariasz Sobierański (1860 – 1902).

Due to these glorious persons we have now a possibility to describe in details the true image of each epoch and to understand each epoch advances in different fields of medical activity.

If we compare the century-old friendship of our two peoples to the apple-tree in the paradise, it is possible to understand this tree contemporain abundant fecundity due to its deep roots.

**Henryk Karol  
Kadyi  
(1851-1911)**

**Andrzej Obrzut  
(1854-1910)**

**Leonard Bronisław  
Radziszewski  
(1838-1914)**

**Włodzimierz  
Wysokowicz  
(1854-1912)**

**Przyjaźń Polsko - Ukraińska ma dawną historię  
i dla tego tak obficie owocuje w nasze dni**
