PACS GRANTS

Until May 2012 PACS offered programs allowing support for research trips within Poland and abroad, and for conference participation. The programs (incl. conference, international travel, library research, and lecture tours grants), however, were suspended due to Canadian government's decision to cease financial support of Understanding Canada Program (incl. financial contribution to PACS budget).

EU-CANADA STUDY TOUR AND INTERNSHIP PROGRAMME THINKING CANADA

“Thinking Canada” is a new initiative of the European Network for Canadian Studies, funded generously by the European Commission – a three-and-a-half week study tour to Canada for European students, followed for selected participants by two-month

internships. It is preceded by a couple of days of briefings in Brussels on the EU and EU-Canada relations. The aim of the study tour is to offer its participants a unique in-depth experience of Canada through an intensive programme of visits to major private and public institutions, government bodies, think-tanks and NGOs. At each place, the students receive briefings and have the opportunity to exchange views with representatives of these bodies, many of them leading experts in their fields.
