problems, especially on the C. A. „Confining oneself to the testamentary matters we must admit that our papyrus rather supports the theory of *Mitteis* than that of *Schönbauer*.” The testator is an Egyptian who — as his *prenomen* shows — received the Roman citizenship; he does not know Latin, nevertheless he writes his testament *per aes et libram*, entirely corresponding to the disposition of the Roman law with the exception of one single clause relating to a testamentary fine which is in conformity with the Greco-Egyptian law. It is clear that if Aurelius had had still the possibility to avail himself of a Greco-Egyptian διαθήκη he would have done it.
